

LEARNING THROUGH LMS - CANVAS

CANVAS

- CANVAS is a cloud-based Learning Management System (LMS) developed by Instructure.
- Facilitates online learning & course management.
- Used by schools, universities, and corporations.

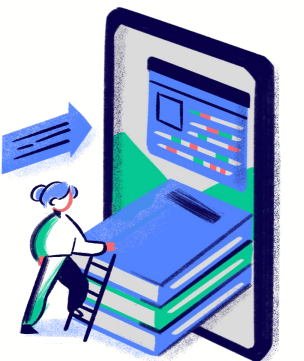

Why use CANVAS LMS ?

- **User-Friendly Interface** – Easy for instructors & students.
- **Accessibility** – Works on any device (PC, tablet, smartphone).
- **Customizable** – Supports multimedia, badges, and gamification.
- **Collaboration Tools** – Discussion boards, group projects.
- **Automated Grading** – Saves time with SpeedGrader & rubrics.
- **Analytics & Reporting** – Tracks student progress & engagement.

Major Features

- Course creation & content delivery.
- Assignments, quizzes, and grading.
- Communication tools (discussions, messaging).
- Mobile-friendly & integrates with third-party apps.

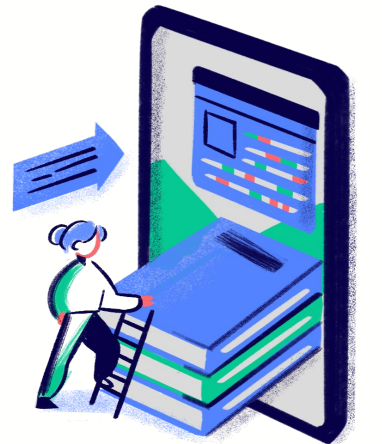

Key Features of CANVAS LMS

- **Dashboard:** Overview of courses and announcements.
- **Modules:** Organize content in a structured way.
- **Assignments & Quizzes:** Submission, grading, and feedback.
- **Grades:** Real-time performance tracking.
- **Discussions:** Collaborative communication.
- **SpeedGrader:** Efficient grading tool.
- **Mobile App:** Learning on the go.

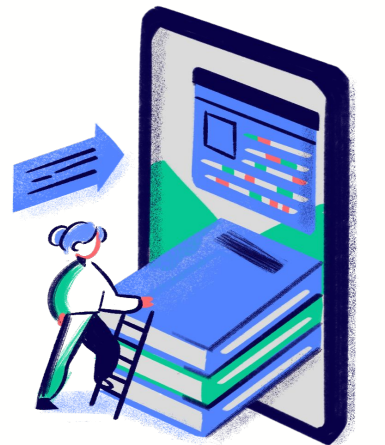

Key Features (Interactive Demo Idea)

- **Multimedia Integration** – Embed videos, PDFs, SCORM.
- **Automated Notifications** – Never miss a deadline.
- **Third-Party Integrations** – Zoom, Google Drive, Microsoft Teams.

CANVAS for Teachers

- Upload lectures, create assignments, give quizzes.
- Monitor student progress.
- Communicate via announcements or inbox.
- Use rubrics and feedback tools for assessments.

CANVAS for Students

- Access learning materials 24/7.
- Submit work online.
- Join discussions and collaborate.
- Receive timely feedback and grades.

Canvas in Blended Learning

- Combines face-to-face and online learning.
- Enables flipped classrooms and self-paced learning.
- Supports differentiated instruction.

-

Future of Canvas LMS

- AI integration for personalized learning.
- Enhanced mobile and offline access.
- More collaborative tools for project-based learning.
